Lisa Gordon and Cassidy McAllister

Chair

Dr. Julie Thompson-Dobkin

Hidden Truths, The Mind Unraveled

is an unforgettable evening you will not want to miss!

Please mark your calendar now and plan to join us on **Saturday, October 8, 2016**, at the **Gray Matter Museum of Art in Costa Mesa** for the fabulous fifth annual **Hidden Truths, The Mind Unraveled** art show. We hope you will join us for this celebration of the arts, which showcases the work of artists with epilepsy in this fabulous venue.

It is an evening filled with delights – including our newest signature cocktail, savory “bites”, fine wines and sweet desserts – all to benefit the Epilepsy Foundation’s outstanding work to raise awareness and accelerate new therapies for people living with epilepsy and seizures. Hosted in conjunction with the Hidden Truths Project, this unforgettable evening features the eclectic and inspiring artwork of national and international artists. From photography, to sculpture, poetry to mixed media and paintings, as well as musical compositions, we are proud to feature the works of many professional artists and of the great number of individuals, whose ART HAS BECOME

A VOICE TO REVEAL THE TRUTHS OF EPILEPSY!
